

Talking Points for the Chairman of Council, Dr. Jeremy Bundi, during the University Prayer Day held on Tuesday, 22nd January 2019 at the Graduation Square

- Bishop Emeritus, Dr. Bonifes Adoyo, Christ is the Answer Ministries,
- Members of Council,
- University Management Board members,
- Members of Senate,
- Students Executive Council,
- Staff,
- Students,
- Invited Guests,
- Ladies and Gentlemen,
- On behalf of Council, and on my own behalf as Council Chairman, I thank the Almighty God for keeping us through the challenges we have faced as a University.
- I am grateful that students and staff have been resilient in keeping hope in spite of the difficult times of losing key staff and a number of students.
- I thank both the Management and the University Chaplaincy for this noble idea of calling the house to prayer. This is in line with scripture in 2 Chronicles 7:14 which says that if my people, who are called by my name, will humble themselves and pray and seek my face and turn from their wicked ways, then I will hear from heaven, and I will forgive their sin and will heal their land.
- I condole with all of us for losing staff and students in very high proportions within a short period of time.
- As Council, we are aware that such happenings can cause fear. We are aware that in the last one month you have moved from funeral to funeral.
- I want to encourage us with the words from 2 Corinthians 9:8 which says 'And God is able to make all grace abound towards you, that you, always having all sufficiency in all things, may have an abundance for every good work.'
- I want to believe that on account of the good works we have done for our God, He will listen to us and spare us.
- The challenge of keeping cohesion among ourselves is evident but this day marks a new page for us. My prayer is that God will keep us as one.

- Remember that a family that prays together stays together.
- I thank all of us for turning up in large numbers to pray.
- May God Bless You. May God bless MMUST.

Dr. Jeremy Bundi
Chairman of Council
Masinde Muliro University of Science and Technology
